# MANSHI KANDU

Kalanki, Kathmandu | 9847014135 | manshikandu@gmail.com | linkedin.com/in/manshi-kandu | github.com/Manshikandu

## PROFESSIONAL SUMMARY

QA Engineer with professional experience in software testing across web-based and SaaS applications, including functional, UI, regression, API, and performance testing. Experienced in analyzing requirements, designing and executing test cases, identifying and documenting defects, verifying fixes, and collaborating with developers throughout the software development lifecycle. Familiar with API testing using Postman and Swagger, performance testing using Apache JMeter, and end-to-end test automation using Playwright and JavaScript. Focused on improving test coverage, identifying potential risks, and delivering reliable, high-quality software.

## TECHNICAL SKILLS

**Testing:** Manual Testing, Functional Testing, UI Testing, Regression Testing, API Testing, Performance and Load Testing, End-to-End Testing, Test Case Design, Test Execution, Defect Reporting

**Automation:** Playwright, JavaScript, Cypress

**API & Performance:** Postman, Swagger, Apache JMeter

**Defect & Test Management:** Jira, ClickUp, Lark, Trello

**Programming & Database:** JavaScript, SQL, HTML, CSS, MySQL

**Development Technologies:** React.js, Node.js, Express.js, Tailwind CSS

**Tools:** GitHub, Microsoft Excel, Figma, Visual Studio Code

## PROFESSIONAL EXPERIENCE

**Junior QA Engineer | Voxcrow Pvt. Ltd.** | March 2026 – Present | Kathmandu, Nepal

- Perform functional, UI, regression, exploratory, and API testing to validate application behavior, business rules, and integrations.
- Identify, document, prioritize, and track defects; collaborate with developers to investigate issues, verify fixes, and prevent regressions.
- Use Apache JMeter to evaluate application response times and performance under defined test conditions, where applicable.
- Develop and maintain end-to-end automated test scripts using Playwright and JavaScript to improve test coverage and testing efficiency.
- Communicate testing progress, defect findings, and release-related risks to relevant team members.

**QA Intern | Rewa Soft Pvt. Ltd.** | September 2025 – January 2026 | Kathmandu, Nepal

- Performed manual, functional, UI, and regression testing for CRM, travel management, healthcare, and other web applications.
- Reviewed requirements and designed and executed test cases to validate implemented functionality against business requirements.
- Conducted API testing using Postman and Swagger to verify endpoints and application responses.
- Collaborated with developers throughout development and testing cycles and performed retesting after defect fixes.
- Participated in client demonstrations to validate completed features and deliverables.

## SELECTED QA PROJECTS

**RingGaze & Buel PBX – VoIP Products**

- Performed manual, API, regression, performance, and load testing.
- Used Apache JMeter to evaluate application performance and response times.

**Buel Bucket**

- Developed and executed end-to-end automated test cases using Playwright and JavaScript.
- Performed regression testing to validate existing functionality after feature changes.

**GetDesk**

- Tested end-to-end workflows across call handling, agent management, outbound campaigns, contact groups, dashboards, and reporting.
- Investigated critical defects, including HTTP 500 errors, campaign execution failures, and mismatches between dashboard call counts and CDR data.

**CRM Application**

- Performed functional, UI, regression, and API testing.
- Created test cases and validated application functionality against business requirements.

## EDUCATION

**Bachelor of Science in Computer Science and Information Technology (BSc. CSIT)** | Sagarmatha College of Science and Technology | 2021 – 2026 | Kathmandu, Nepal
